**SUPERVISOR CHECK**

Sign only after checking that the questionnaire (including the market and store price surveys) is complete.

**SUPERVISOR**

### **NOTES TO INTERVIEWERS**

- Questions in Sections A, B, C, D, E, and G should be answered by the interviewer team, in consultation with key informants in the community. You should attempt to assess the accuracy of the information provided by also checking official sources (e.g., provincial records) where possible.
- Section F (Prices) should be completed by the interview team by observing prices in local stores and in the nearest fresh produce market, using the weighing equipment provided where necessary.
- If the census unit either has no stores or has no fresh produce market within its boundaries, record prices in the stores and market that are most often used by the people living in the census unit.
- If the census unit is a "line-up" enumeration point, and has many small villages or hamlets within its boundaries, answer the questions only for villages and hamlets where the sampled households live.
- For each question, unless otherwise stated, make certain you either tick one box from the choices given, or write the answer in the space provided.
- For all questions, when referring to the "nearest" (e.g., hospital, market), "nearest" means the one that can be reached in the shortest time by the method of travel most used by the people in this community. This need not be the one that is the closest physical distance.
- For all questions, referring to "here" means the centre of the census unit to which the form relates, i.e., the census unit whose name is recorded on the front cover. This will usually correspond to a village.

### **Section A. Listing of Community Assets**

Please record the number of business activities and community assets present in the census unit, using the list below.

Business activities and community assets	number
Trade stores	
Liquor outlets	
Petrol outlets	
P.M.V. businesses	
Logging or sawmill operations	
Agricultural processing operations (e.g., cocoa fermentaries, copra driers)	
Fresh produce markets	
Churches	
Missions	
Village community centres	
Local government council offices	

**Section G. Changes in Economic Activity, Infrastructure, and Services**

List any major changes that have taken place in this area within in the last 10 years. The changes do not have to have occurred inside the census unit but they must have had a major impact on the people who live in this census unit. Please use the categories specified.
