Overview

ABSTRACT

The 2015 Cook Islands GSHS was a school-based survey of students in Years 8-13, which are typically attended by students aged 13-17. A two-stage cluster sample design was used to produce data representative of all students in Years 8-13 in Cook Islands. At the first stage, all schools were selected to participate. At the second stage, all classes were selected to participate and all students were eligible to participate.
