Overview

ABSTRACT

The Country Opinion Survey in Papua New Guinea assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Papua New Guinea perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Papua New Guinea on:

- 1) their views regarding the general environment in Papua New Guinea;
- 2) their overall attitudes toward the WBG in Papua New Guinea;
- 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Papua New Guinea; and
- 4) their perceptions of the WBG's future role in Papua New Guinea.

Sampling

Sampling Procedure

From May to June 2017, 279 stakeholders of the WBG in Papua New Guinea were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the office of the President/Prime Minister, office of a Minister, office of a Parliamentarian, employees of ministries/ministerial departments/implementation agencies, Project Management Units (PMUs) overseeing implementation of WBG projects or consultants/contractors working on WBG-supported projects/programs, local government office or staff, bilateral/multilateral agencies, private sector organizations, private foundations, the financial sector/private banks, NGOs/community-based organizations, the media, independent government institutions, trade unions, faith-based groups, youth groups, academia/research institutes/think tanks, and the judiciary branch.

Response Rate

19%

Weighting

The results of this year's Country Survey were compared to those in the Country Survey conducted in FY '14 (response rate was 32%, N = 150). Unfortunately, the samples from FY14 and FY17 were quite disparate in terms of their representation of stakeholder groups and given the overall sample sizes, it would not be statistically sound to weight them to be more similar. Hence, changes in responding between FY14 and FY17 may be due to actual changes in the country, but it is also possible that these changes are due, in some part, to differences in the respondents. To view the stakeholder breakdowns and year comparison results, please refer to Appendix D (see page 75) of the survey report provided as related materials.
