## PREFACE

This is the second Bulletin in the series on Manufacturing Output, Employment and Wages and Salaries, a result of the quarterly Surveys conducted by the Department for the various quarters of 2015. The survey results indicate the performance of the manufacturing industry in the Tongan Economy.

### **The bulletin is spread over three parts:**

**Part I:** gives the introduction and main results of the comparative position and trend of manufacturing production, employment and wages and salaries.

**Part II:** has all the statistical tables showing growth and trend of manufacturing production, employment and wages/salaries.

**Part III:** gives the questionnaire used in the quarterly survey of manufacturing production, employment and wages/salaries and instructions for completing the questionnaire.

Staff of the Business Establishment Surveys, Manufacturing of the Department is commended for their hard work in collecting the information present in this bulletin.

The Department is grateful to all manufacturing establishments that supplied the data and information published in this bulletin. The Department welcomes any comments on how this bulletin could be improved.

## INTRODUCTION

1. The Department launched a regular quarterly survey of Manufacturing Production, Employment and Wages and Salaries effective from July-September 1983 up to 2007. The survey covered all manufacturing establishments and units that were registered as manufacturing type, (i) under the Companies Act 1912, (ii) those granted Development License for manufacturing under the Industrial Incentives Act 1978 and (iii) those engaged in manufacturing activities with a license issued by the Ministry of Labour, Commerce and Industries.
2. Data were collected by personal visits of the Departments' survey staff from the manufacturing enterprises, establishments and units that were operational in the various quarters starting July-September 1983 and subsequent to the last quarter (October-December) of 2007. Manufacturing survey came to a stop from 2008 to 2013 due to staff constraint resulted in time series and trend break of information. *In 2014 Manufacturing survey started again with the first report after that break in the manufacturing time series. This is the second Bulletin on Manufacturing Output, Employment and Wages and Salaries contains data for calendar year 2015 was published by the Department in February 2017.*
3. An establishment was treated as manufacturing if it was engaged in the transformation (mechanical or chemical) of substances into new products whether by machines or by hand in a factory or other business premises. An establishment/unit engaged in the assembly of component parts of manufactured products was treated as engaged in manufacturing except where it undertook construction activity.
4. The survey did not cover enterprises, establishments and units that were engaged in (a) repair and maintenance of vehicles, machinery and equipment; (b) canning, preserving and processing of fish and fisheries products; and (c) household type of activities related to making handicrafts and the like.
5. The questionnaire used for collecting the data from the said manufacturing enterprises and units is given as Appendix 1. Instructions for completing the questionnaire will be found in Appendix 2. However the definitions used for manufacturing businesses for the survey in question were:

**Enterprises:** A single business entity, Private, Government, Quasi-government and Co-operative operating in Tonga as a legally constituted body such as a company, partnership, co-operative and also sole ownership, engaged in manufacturing type of activities is treated as an enterprise. There are generally two types of enterprises viz.:

- i. "Single Establishment Enterprise" consisting of only one establishment and

- ii. "Multiple Establishments Enterprise" consisting of more than one establishment with or without ancillary unit or one establishment plus one or more ancillary units.

**Establishment:** a separate operating unit (factory, store, workshop or other place, etc.) engaged in Tonga in one or predominantly one kind of economic activity at a single physical location.

6. Manufacturing establishments have been classified into Divisions according to the International Standard Industrial Classification (ISIC) Series M No. 4, Rev.3 for Major Divisions 15-37, Manufacturing Industries.

**THE FOLLOWING ISIC DIVISIONS HAVE BEEN USED:**

**DIVISION:**

15. Manufacture of food products and beverages (bread, sausages, soft drinks and ice-cream etc.)
16. Manufacture of Tobacco Products. (Cigarettes)
17. Manufacture of textiles (t-shirt, pullovers and quilts etc.)
18. Manufacture of wearing apparel; dressing and drying of fur (dress, trousers, lavalava etc.)
19. Tanning and dressing of leather; manufacture of luggage, handbags, saddlery, harness and footwear
20. Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials
21. Manufacture of Pulp, paper or corrugated, paperboard and articles of paper
22. Publishing, printing and reproduction of recorded media
24. Manufacture of chemicals and chemical products (tablets, paint and varnish etc.)
26. Manufacture of other non-metallic mineral products (concrete blocks and water tanks etc.)
28. Manufacture of machinery and equipment n.e.c.
29. Manufacture of electrical machinery and apparatus
30. Manufacture of radio, television and communication equipment and apparatus
31. Manufacture of medical, precision and optical instruments, watches and clocks
35. Manufacture of other transport equipment (boat, cart, bicycle etc.)
36. Manufacture of furniture
37. Recycling and other manufacture industries n.e.c.

## SUMMARY OF SURVEY RESULTS

7. A comparative summary of the survey results for calendar year 2015 is given hereunder:

Item	Unit	2015	Quarter 1 Jan-Mar	Quarter 2 Apr-Jun	Quarter 3 Jul-Sept	Quarter 4 Oct-Dec
1. Establishments covered	No.	76	76	76	77	76
2. Total production	T\$	37,224,583	9,360,348	9,881,442	9,086,769	8,895,025

### MANUFACTURING OUTPUT

8. The survey showed that the total value of manufacturing output at end of 2015 stood at T\$37.2 million as compared to T\$24.3million in 2014, an increase of 53.1%. This rise in total manufacturing production was accounted for by the increases in the production groups of Food products and beverages by 34%, Manufacture of Tobacco products by 67%, Manufacture of Wearing Apparel by 140%, Chemicals and chemical products by 16%, Non-metallic mineral products by 236%, Manufacture of Furniture by 149%, Wood products by 3%, Publishing and printing by 9%, Fabricated metal products by 8% and Other manufacturing industries by 17%. This huge increase in Non-metallic mineral products was due to local demand on residential construction activity, building products. The rest of the production group show decreases in its production such as the Manufacture of textiles which fell by 45%.

Note: ISIC (International Standard Industrial Classification) Div. (Division)

Leading to this increase in total manufacturing production for 2015 was the inclusion of Ha'apai and 'Eua divisions resulted in number of establishment; an increase of 33%.

However, the food and beverage group still dominates the total manufacturing production with a contribution of 38% (T\$14.3 million) to the total production compared to 44% last year. Non-metallic mineral products group followed with a contribution of 16% (T\$6 million), Tobacco products group contributed 15% (\$6 million), Chemicals Industries group contributed 8% (\$3 million), Wood and Products of Wood Industries group contributed 5% (\$2 million) and All other Industries accounted 17%.

9. The contribution of the Island Division sectors in the total manufacturing and related activities for year 2015 compared to 2014 was noted as given in the table hereunder; it will be seen that (i) Tongatapu Division produced a total of \$33 million pa'anga in 2015 which is a 42% increase from 2014 production. Vava'u division also shows a big improved in production of 260% in 2015 which totaled up to \$3.7 million pa'anga compared to only \$1.0 million pa'anga in 2014. Ha'apai and 'Eua divisions improved their share of productions by 1.6% in 2015.

	<b>All Manufacturing</b>	<b>566</b>	<b>100.0</b>	<b>415</b>	<b>100.0</b>	<b>36.4</b>

12. The survey showed the share of employment in 2015 commanded by (i) Food and Beverages Industries the highest 42%, followed by (ii) Non-metallic Industries 17%, (iii) Wood Industries 15%, (iv) Furniture Industries 9% and (v) All other industries 17%.

13. The employment level at Island division showed, (i) Tongatapu division roll down its share of employment from 92.3% in 2014 to 86.6% in 2015, (ii) Vava'u division improved its share of employment from 7.7% in 2014 to 10.6% in 2015 and (iii) Ha'apai and 'Eua division improved their share of employment by 3.0% in 2015. The table below reflects the position stated above:

		Employment level and its share in				
Division	Island	2015 (T\$)	%	2014 (T\$)	%	% change 2015/2014
01	Tongatapu Division	490	86.6	383	92.3	27.9

15. Over the period 2014 to 2015, the change in employment position for each sector as recorded was: (i) Private Sector improved by 46%, and (ii) Government and Quasi-Government sectors also improved by 3%.

### Manufacturing Wages/Salaries

16. The level of wages and salaries by various industrial divisions at end of 2015 compared to end of 2014 is given below:

		Wages and Salaries level and its share in				
ISIC Div.	Description	2015 (T\$)	%	2014 (T\$)	%	% Change 2015/2014

<b>All Manufacturing</b>		<b>6,047,773</b>	<b>100.0</b>	<b>5,765,883</b>	<b>100.0</b>	<b>4.9</b>

Note: ISIC (International Standard Industrial Classification) Div. (Division).

17. The survey data show that wages and salaries to employment engaged in manufacturing and related activities stood at T\$5.8 million in 2014 but went up to T\$6.0 million in 2015, an increase of almost 5%.

18. It shows that the share of wages and salaries to employment carried by various divisions at end of 2015 are: (i) Food and Beverages Industries have 44% as the highest, followed by (ii) Wood Industries 19.2% (iii) Non-metallic Mineral Industries 14.1%, (iv) Publishing and Printing Industries 5.2%, and (v) All Other Industries 18.2%.

19. The level of wages and salaries carried by each Island Division at end of 2015 compared to end of 2014 is given below

		<b>Wages and Salaries level and its share in</b>				
Division	Island	2015 (T\$)	%	2014 (T\$)	%	% change 2015/2014

### INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE ON QUARTERLY SURVEY OF MANUFACTURING PRODUCTION, EMPLOYMENT AND WAGES/SALARIES.

#### 1. GENERAL

Please note that the code number on the right hand corner of the questionnaire is your establishment's code number based on the Register of Establishments maintained in the Statistics Department. The information, being requested should relate only to the quarter referred to in the questionnaire.

#### 2. PRODUCTION

**2.1** Please enter all the products produced by the establishment and for each such product please: - i) Specify the unit used for measuring each product (e.g. kg, dozen, litre etc.)

- ii) Enter the average quantity, in the unit stated in (I) above, of the products produced during each month of the reference quarter.
- iii) Enter the average ex-factory value of the quantity referred to in (II) above.

**2.2** Enter here the total value of the products other than the main ones mentioned in 2.1 manufactured by the establishment.

**2.3** Enter here the total value of work done by your establishment for others.

#### 3. EMPLOYMENT AND WAGES/SALARIES

For each category of employees (at 3.1 a to d) please: -

- i) Enter in the column “No” either column 2, 5 and 8 the total number of persons engaged in the establishment on the last payday of each month of the reference quarter. The family workers working on the last payday should be entered though they may not be paid.
- ii) Enter in column “Wages/Salaries Paid” either column 3, 6 and 9 the total amount of wages and salaries paid to employees by cash/cheque as compensation for the services rendered by them. This should include all payments made on account of bonuses, cost of living allowances and wages paid during vacation and sick leave for the reference period. Payments made to (1) regular/full-time and (2) part-time/casual and daily paid workers should be shown separately.

##### 3.1 Category of Employees: -

- a) **Working proprietors and active partners:** are all individual proprietors and partners who are actively engaged in the work of the establishment.
- b) **Production workers:** are those who are directly engaged for pay in the production activities of the establishment. They may be full-time/regular or part-time/casual/daily paid.
- c) **Unpaid family workers:** refers to all such family members working in the establishment without regular pay at least one-third of the normal working time.
- d) **Other employees:** refers to all persons other than those listed above working in the establishment. This shall include administrative, technical and clerical personnel such as salaried Managers, Directors, Clerks, Typist, Bookkeepers, Administrative Supervisors, Salesmen, etc. Proprietors and partners shall be excluded in here but included under 3.1(a) above.

**3.2 Memorandum items:** (wages and salaries paid in kind) refers to the net cost to the employer, of those goods and services provided to employees free of charge or at a markedly reduced cost which are clearly of benefit to employees. The items included normally are food, beverages, tobacco, clothing etc. Note that an estimated value of these items will be acceptable.
